Backend Software Engineer with a passion for crafting efficient APIs. Proficient in optimizing system performance and dedicated to delivering scalable solutions. Collaborative team player committed to achieving project success.

PROFESSIONAL EXPERIENCE

Livnest Technologies. Mumbai Thane

2023 April – Present

Software Engineer (Backend)

- Demonstrated expertise in Core PHP, Node.js, Express, Mongo DB, MySQL, Redis, and external APIs to architect and develop a robust finance management system in a dynamic startup environment.
- Implemented OAuth and JWT authentication to enforce access controls, securing sensitive financial data
- Applied advanced normalization techniques, utilizing Mongo DB for flexible document-based storage and MySQL for structured data, enhancing system performance in a resource-efficient manner typical of startups
- Designed REST APIs, implemented GraphQL, and collaborated cross-functionally using GIT for version control.
- Thrived in a startup culture by quickly adapting to evolving requirements and contributing innovative solutions to meet the dynamic needs of the finance management system.

Google Developer Group (remote)

2021 September-March 2023

Open Source Contribution

- Engaged as a member of the Google Developer Group during quarantine, actively contributing to open-source projects using technologies such as Mongo DB, Express, and Node.js.
- Collaborated with a diverse team to conceive and execute innovative projects, showcasing leadership skills and a commitment to community-driven development.
- Played a pivotal role in leveraging Mongo DB, Express, and Node.js to create scalable and impactful solutions, demonstrating a strong grasp of modern web development technologies.
- Actively participated in community-building initiatives, fostering a collaborative environment and promoting knowledge sharing among developers.

JURNI MEDIA London

2020 February – 2020 March

Front-end Developer

- Partnered with back-end developers and created dynamic web pages using JavaScript, resulting in website leads increase by 15%.
- Collaborated on APIs and managed software workflow using Scrum methodology, increasing task success rate by 25%.

EDUCATION

Nagindas Khandwala College – Mumbai (Malad)

Bachelor of Computer Programming and specific Applications

- 2020 – 2023
- CGPA – 9.30
